ABOUT ME

Junior Full Stack Web Developer with experience on Laravel 8, Livewire, Javascript, etc. Interested in specialization on Backend, Python and IA's. Proactive and motivated to learn grow both personally and professionally.

I am interested in contributing and mutually benefiting with my colleagues and friends. Therefore, I am open to constructive proposals and opinions, aiming to generate a sense of comfort and trust in the people around me.

WORK EXPERIENCE

FullStack Developer

eAgora Algoritmo del Cambio   2023-2023

Period of training in Work Centers as FullStack Developer, focusing on Laravel 8 + Livewire + Bootstrap for Frontend development and Laravel Lumen + MySQL for Backend development.

Volunteer

Cerebritos_   2017-2023

I am volunteer with the Cerebritos_ association, participating in various activities such as being a monitor for different workshops in the field of multiple intelligences, a monitor and coordinator at the Gamer Forum of Los Realejos, and various activities related to team management and/or events.
